w/4-Post Shelving

Ocean County College requested a design and space plan that would allow consolidation of all purchasing personal and their filing needs into one efficient and well organized office.

The challenge of the project was the tight construction schedule and the demand to deliver highly functional workstations for the allowed budget.

Butler Office Interiors worked closely with Trendway, United Chair and Datum High Density Filing Systems to provide the best solution that gave the Ocean County College the look they desired to fit within their budget.
